PROF. BRYAN STILL IN RACE FOR GOVERNOR

May Be Offered as 'Harmony'
Candidate in Effort to De-
feat Pinkham

COUNTY COMMITTEE IN MEETING LAST NIGHT

Democrats Determine to Have
a United Front Provided They
Must Fight for It

Professor William A. Bryan of the College of Hawaii is not out of the gubernatorial race. That much was made certain last night at a spirited meeting of the Democratic county committee. Professor Bryan's name may be considered as the "harmony-candidate," so called, by the county committee to defeat the nomination of L. E. Pinkham for governor of Hawaii.

At the meeting of the committee last night Professor Bryan appeared and made a short speech, following which the proposition of agreeing upon a "harmony candidate" was taken up and Professor Bryan's name was mentioned in that connection. He stated in his speech before the committee that he believed that the defeat of Pinkham could be accomplished if the Democrats of the territory would get together and agree upon one man.

In another connection he said that he had become a candidate for the gubernatorial position, being urged by his friends to do so. He added that his friends still believe he has a good chance of winning, especially a good chance if the several factions of the party can be brought to a point of agreement on one man as their choice for the job.

Professor Bryan stated this morning that he would accept the endorsement of the party here and renew his efforts for the nomination.

The meeting last night was spirited and barely missed coming to an abrupt end once or twice. "Soap Box" Barron was made chairman in the absence of Jack Kanahele, the president. The question of the race in the committee which occurred during the last session of the legislature, suddenly left for the mainland, came up.

The name of L. Parrish was suggested for Kanahele's place, which met with strong opposition at the hands of the president. In the midst of the argument over it, Will Miles, secretary of the mayor, left.

It was after he had left that Professor Bryan spoke.

He pointed out the great necessity for the Democrats to get together in the territory, in order to succeed in the present administration, and particularly endorsed the proposition of one Democrat, agreeable to all factions, to be put in the race to defeat Pinkham.

As long as the party is divided it will be able to accomplish little, he said.

There will be another meeting of the committee soon, and from one or two of the members it is learned that Professor Bryan's name will probably be laid before the committee with the recommendation that he be endorsed as a proposed "harmony candidate."

UNPRECEDENTED WATER SHORTAGE IN HAWAII NOW

The September monthly report of the hydrographic division of the Bureau of Agriculture and Forestry made at a board meeting today, states that a condition of almost unprecedented drought exists on all of the islands of the territory. On Oahu and West Maui especially, streams have reached the lowest known discharge on record.

During the month G. K. Larison, superintendent, and C. T. Bailey, assistant engineer, completed a reconnaissance of all streams on Maui before the Hana and Kaupo. It is estimated that these streams will furnish a minimum discharge of about 20 million gallons per day, of which a very small percentage is now being utilized.

On the islands of Maui and Kaula construction and improvement work in the nature of new automatic clock register stations, and new trails over territory previously considered impossible, has progressed rapidly. The field work of the special Kona water supply investigation is nearing completion, and it is expected that all except routine rain gage reading will be completed by December 1.

NEW ELEMENT INTRODUCED IN WAR GAME

Superior Force Is Divided and
Junction Is Necessary to
Carry Out Mission

BLUES AND REDS STILL IN BLOODLESS BATTLE

Today's Maneuvers Most In-
teresting of Series of Diver-
sified Field Exercises

By LAURENCE REDINGTON,
Star-Bulletin Staff Correspondent in
the field with the 1st Hawaiian Bri-
gade.

(By telephone from the field)

IN CAMP NEAR CASTNER, Oct. 17, 11 a. m.—It will take the combined legal talent of General Macomb and his entire staff of lawyers to argue the case of Blues vs. Reds, heard this morning. So complex has the situation become, owing to a scarcity of blank ammunition, which prevented the commanders and umpires from telling the location and extent of opposing fire, that when recall sounded at 12:05 it was impossible to tell whether the Reds had succeeded in holding the crossing of Kauhanehale gulch or whether the defending Blues had driven the invaders back.

The problem moved slowly for several hours when a sharp fight finally developed in the neighborhood of Wa-hiwa-dan and to the west of it, with the 1st infantry, commanded by Major Taiman, bearing the brunt of the battle.

Today's maneuver brought in a new element, in that the superior force was divided, the two regiments on the Blue side having to effect a junction before carrying out their mission. In many ways this turned out to be the most interesting of an exceptionally diversified and interesting series of field exercises.

The Blue force today consisted of the 1st and 25th infantry, and one battery of field artillery, while the 2d foot became the Red invaders, who

MILL ENGINEERS COME TOMORROW FOR CONVENTION

Delegates from All Over Terri-
tory Will Discuss Vital Prob-
lems of Sugar Industry

Delegates from many parts of the territory will arrive tomorrow morning on the Mauna Kea, to attend the first annual convention of the mill engineers of Hawaii. Hawaii and Maui delegates are due on the Mauna Kea, though some of them have already arrived, and the Kaula contingent will reach Honolulu on Sunday.

Informal sessions will be the rule until Monday, when the formal program begins. Thirty-two delegates have been named from various plantations, and in addition there will be in attendance a large number of sugar men—plantation managers, members of agencies and representatives of the Planters' Association.

Eighteen delegates from Maui and Kaula are expected on the Mauna Kea tomorrow morning, and will be met by a special reception committee from the Hawaiian Engineering Association, under whose auspices the convention has been arranged. An informal gathering will take place tomorrow evening at 7:30 o'clock on the roof garden of the Young Hotel, to give the delegates an opportunity of becoming acquainted with each other.

On Sunday morning, after the arrival of the Kaula delegates, a trip to Pearl Harbor offers an attractive program. Through the courtesy of Admiral Moore, the naval tug Navajo will take the delegates and their guests to Pearl Harbor to inspect the engineering work of the drydock, power plant, coal-handling equipment and buildings of the naval station. The party will leave the Commercial Club at 9:30 o'clock. The trip will be in charge of Civil Engineer E. R. Gayler.

The following sugar mill engineers will attend the convention:

R. E. MacKenzie and Thos. Murray, Paauhau Sugar Co.; Alexander Milne and Geo. Duncan, Olan Sugar Co.; F. P. Beckert, Kakaia Mill Co.; Wm. Napier, Niihii Mill and Plantation Co.; Wm. Wyllie, Onomea Sugar Co.; Joseph Wyllie, Pepee Sugar Co.; Jas. E. Kennedy, Hakalau Plantation Co.; Harry T. Walker, Hamakua Mill Co.; James Ogg, Hawaiian Agricultural Co.; James Russell, Hawi Mill and Planta-

ZEPPELIN EXPLODES IN MID-AIR; ARMY MEN DIE Huge German Dirigible Bursts, Victims Fall 900 Feet

Zeppelin dirigible of similar type to the one that exploded today. Photograph taken during recent aerial maneuvers and yacht races at Kiel.

(Associated Press Cable)

BERLIN, Germany, Oct. 17.—The greatest disaster in the history of aviation and one of the most sensational occurred today when the huge Zeppelin dirigible L-11 exploded in mid-air and killed more than a score of army officers and military aviators. Among the 26 military men who were killed were two close friends of the Kaiser. Several army birdmen of international repute were lost.

The L-11 was the newest of the German Zeppelins and was on her trial trip. The huge, swollen structure of the dirigible, 500 feet long, burst almost with the suddenness of a toy balloon when the explosion occurred 900 feet in the air above the city of Jannishthal.

So rapidly did the flames envelope the dirigible that almost before the Zeppelin crashed to the ground the aluminum and steel used in the framework had been burned bare. The Zeppelin dropped into the main street of Jannishthal, a twisted mass of metal framework in which lay the bodies of most of the victims.

Only one man remains alive of those who took the trial flight. The survivor, Lieut. Baron von Bient, was terribly injured, both eyes being burned out. He was in such agony that he begged his rescuers to kill him.

Witnesses to the accident say that first there were small explosions near the motor amidships, then the violent explosion came which shattered the covering and started the flames. The Zeppelin carried a ton of gasoline and balloons.

Besides the disaster to the Zeppelin, three military aviators were killed today in separate accidents.

Count Zeppelin has been having unusual success with his dirigibles recently, although on September 16 one of them was caught in a gale and blown to sea a hopeless wreck.

(Note—For list of casualties in aviation see page four.)

M'CARTHY SAYS MARKETMEN ARE FACING ARREST

Board of Health and Supervi-
sors Fail to Agree and the
Treasurer Will Act

His patience exhausted at the failure of the board of health and the supervisors, after four months of effort to reach a satisfactory agreement with the fish market merchants for a sanitary permit to be issued to them, Col. Chas. J. McCarthy, city and county treasurer, will take the matter in his own hands. Drastic steps he plans to take, which will mean nothing less than the arrest of the fish merchants for doing business without a merchant's license, which they cannot obtain without a sanitary permit.

Arrests may be made tomorrow of every merchant doing business at the two markets. Saturday may see the fish markets empty and without trading. The arrest of the vendors there is the only course the treasurer now sees open to him. For four months, he says, he has been waiting for the supervisors and board of health to reach a satisfactory agreement with the marketmen, but now that the board has refused to issue the sanitary permits, he feels it his duty to deal with the merchants as the law directs and as other dealers have been dealt with.

Makes Adverse Decision.

The committee on health of the supervisors recommended to the board of health that the sanitary permits be issued to the fish market merchants, but following an inspection of the two markets yesterday afternoon the board decided adversely to the recommendation, announcing that it would not grant the permits with the markets in their present condition.

It was this decision which led Colonel McCarthy to state this morning that he did not feel justified in waiting longer for a settlement, and that it would now be necessary for him to arrest the merchants for doing business without a license. At the same time, he feels that there is an element of hardship upon the merchants by taking such action.

Many specified improvements have been directed to be made, some by the committee on health of the supervisors, some by the joint committee of the board of health, and some by

BLACK HORSE BATTERY SETS FINE RECORD

Famous Field Artillerymen Do
Remarkable Shooting at
Schofield Wednesday

Remarkable firing done by the famous Black Horse battery of the 1st Field Artillery at Schofield last Wednesday is believed to have gained for this noted battery a record never before equaled in field artillery gun practice.

The Black Horse battery, Battery F, was under the eye of the artillery inspector, Maj. L. S. Lyon, as well as under the stimulus of the presence of Gen. Funston, Col. Rafferty, commanding the artillery district, and Maj. Conklin. If the final reports prove up to the enthusiastic statements of those who saw the battery in action, a record for the entire country has been created.

The battery had a target 2500 yards away, consisting of four dummy machine guns and the dummy figures of 23 men. Thirty-six shots were fired by the Black Horse in four minutes, this period including the determining of two range.

Of the four dummy guns, one was smashed to pieces and all the others struck. All but one of the 23 dummy figures of men were hit. The time of the battery is said to have been better than that of any other battery in the army.

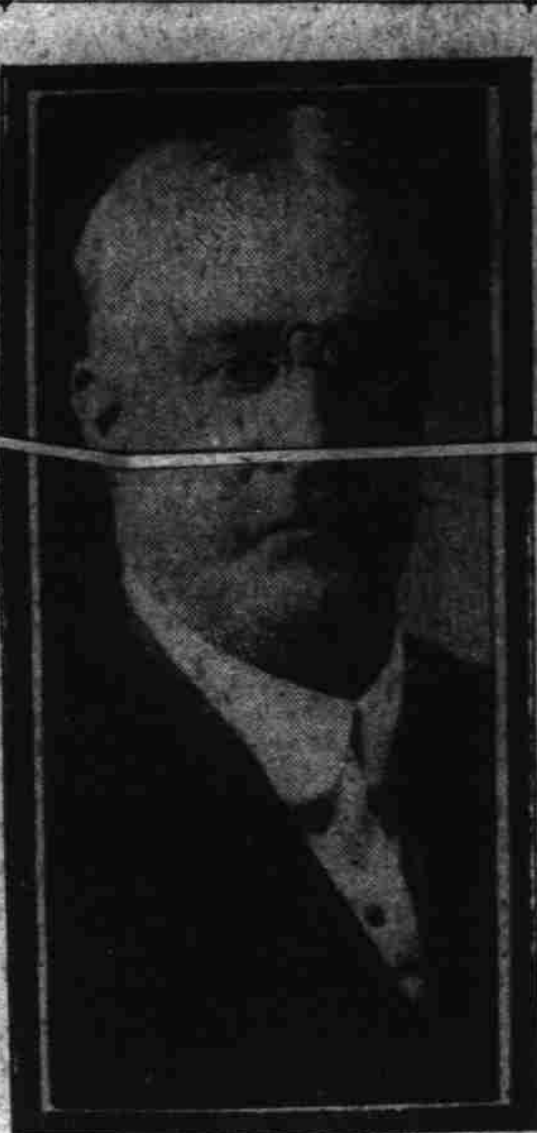

Maj. Lyon, the inspector, says that the Second battalion of the 1st Field Artillery has reached the high-water mark of excellence, and he has seen them all in action. The 1st Battalion also did some splendid firing, under adverse conditions, as since May 21 this battalion has been without horses and guns and used those of the other battalion. Maj. Lyon also praises highly the splendid work of the Black Horse battery.

Capt. Clarence Deems of the Black Horse battery was away and Lieut. Naylor was in command. The other officers of the battery are Lieutenants Rogers, Deshon and Roosevelt.

NO CLASH BETWEEN LOCAL SUGAR MEN AND REFINERS

Local sugar men say there is no truth whatever in the report of a clash with the American Sugar Refining Company as one of the causes for the decision of the sugar factors to

JOSHUA D. TUCKER
HONORED BY MASONS

Joshua D. Tucker.

(Associated Press Cable)

SAN FRANCISCO, Oct. 17.—Joshua D. Tucker of Honolulu today was elected grand standard bearer of the grand lodge of Masons in session here.

Tucker went to San Francisco a short time ago to attend the annual meeting of the Grand Lodge, F. and A. M., of California, which is now in session, as a delegate from the Honolulu Masonic lodge, which are all under the jurisdiction of the California body. His appointment to the office of standard-bearer is a distinct promotion.

Under the contract that Hawaii has with the American Sugar Refining Company, the increase in sugar tonnage to the coast refineries was allowed for, and the change is now made for reasons of business economy already set forth.

SULZER REMOVED BY VOTE OF 43 TO 12; IS FOUND GUILTY ON THREE COUNTS

Court Votes Him Innocent of Five Charges Preferred in the
Articles of Impeachment—May Hold Office Again in State.
—Glynn Becomes Governor

(Associated Press Cable)

ALBANY, N. Y., Oct. 17.—William Sulzer, guilty as charged in three out of eight articles of impeachment, is no longer governor of New York. He was formally removed this morning by a vote of 43 to 12 in the court of impeachment.

This vote followed the taking of the ballots on the separate articles of impeachment. All four of the ballots taken today resulted in a verdict of innocent. As the four counts balloted upon yesterday brought verdicts of guilty on three and innocent on one, the executive of the state has been convicted as charged in three out of the eight articles of impeachment.

The counts upon which he has been found guilty are:

1. That he filed with the secretary of state a false statement of his campaign receipts, expenditures, disbursements and liabilities.
2. That he was guilty of perjury in stating under oath that his statement of his campaign receipts, expenditures, disbursements and liabilities was correct.

3. That he was guilty of suppressing evidence in using threats to keep witnesses from testifying before the legislative committee.

The charges of which Sulzer is declared innocent are:

4. That he was guilty of bribing witnesses to withhold testimony from the legislative committee which investigated his campaign expenditures and receipts.

5. That he was guilty of preventing and dissuading a witness, Frederick L. Colwell, from attending under subpoena the sessions of the legislative committee.

6. That he used money and checks contributed to his pre-election campaign to speculate in stocks, and that he was thereby guilty of larceny.

7. That, as governor, he threatened to use his office and influence for the purpose of affecting the vote or political action of certain public officers.

8. That, while governor, he corruptly used his authority or influence to affect the current prices of securities listed and selling on the New York stock exchange, in some of which securities he was at the time interested.

After the vote removing Sulzer from office, a ballot was taken on the question of whether he should be prohibited from taking any other office of honor or trust in the state. The vote against disqualifying him from so doing was unanimous, with the exception that Presiding Judge Edgar M. Cullen excused himself from voting.

Martin H. Glynn, lieutenant-governor and acting governor since it was decided that Sulzer's impeachment disqualified him from acting as the executive, will continue as acting governor.

ALBANY, N. Y., Oct. 17.—Lieutenant-governor Martin H. Glynn became governor today, following the removal of Sulzer, and Robert Wagner, leader of the majority in the senate, was made lieutenant-governor. The cost of the impeachment proceedings was \$6,167.

Diplomats Unable to Reach Plan to Help Out Mexico

(Associated Press Cable)

WASHINGTON, D. C., Oct. 17.—Official dispatches received today by the state department bring the news that the conference of diplomats called on Wednesday had not been able collectively to agree on any solution for the Mexican troubles.

It is stated that President Huerta plans to assemble the diplomats again within a few days to make to them a statement on the present situation.

American Miners Killed in Jalisco State

GUADALAJARA, Jalisco, Mexico, October 17.—Two American miners have been murdered near here, but whether by federals or rebels there is some doubt.

Chinese Brigands Spread Terror; Missions Burned

PEKING, China, Oct. 17.—Chinese brigands under General Hwang Li-ang have murdered 300 people in the province of Pekin. Two American mission churches were burned but the missionaries are reported to be safe.

SIZEMORE ON

STAND ADMITS
HE USED CLUB

Witnesses for Officer Accused
Deny Abuse

Bicycle Officer Barry Sizemore, following the evidence of yesterday and this morning, was suspended pending a thorough investigation of the charges against him, according to an announcement made by Sheriff Jarrett this afternoon.

That Bicycle Officer Barry Sizemore did not mistreat a Korean named Ko Sung Woon, in effecting an arrest on Wednesday afternoon was the declaration of half a dozen witnesses called at central police station this morning to give testimony before Sheriff William Jarrett, in his investigation of charges alleging cruelty upon the part of that officer.

Sizemore was given opportunity to tell his side of the story and denied in many essential details the allegations made by Messrs. Bellina, Monsarrat and Henriques, who proved the main witnesses for those representing the Koreans, who is at present an inmate of the hospital, suffering from bruises and possible internal injuries.

Even while the policeman and his friends were giving their testimony, the Korean prisoner he struck, Ko Sun Woon, was under treatment at the Queen's hospital. Expert medical statements to the Star-Bulletin show unmistakably that the Korean was badly clubbed, and the hospital authorities say, moreover, that he gave no evidence to them, when he was brought to the hospital, of being under the influence of liquor.

"I was called to the corner of Ku-

LEGAL OPINION

ASKED ON USE
OF FORESTS

Whether Uncle Sam's warrior's while out on exploration or exercise marches should have the privilege of taking firewood for their camps from forest reserves, was a question discussed at the meeting of the board of agriculture and forestry in the board room of the Waterhouse Company, Ltd., this morning.

District Fire Warden Wheeler had reported that two details of soldiers had applied to him for the privilege with respect to the Pupukea forest reserve on this island, but, being doubtful of whether the concession to the military might not trench on the rights of homesteaders in that locality he thought best to refer the matter to the superintendent of forestry.

It was clearly the sentiment of the meeting, without a formal statement, that as between the soldiers and the homesteaders the latter had prior rights. As yet the homesteaders had not been heard from on the subject. Commissioner von Holt thought the general law gave the public the right to enter government lands and take therefrom deadwood for fuel, sand, etc. At the suggestion of Commissioner Dowsett the matter was referred to the forestry committee, it to obtain an opinion from the attorney general.

An application from Arthur M. Brown, who is interested in the Cornwell ranch, Maui, for permission to erect a summer house within the confines of a forest reserve adjoining that ranch, was deferred for a report on the matter by Forester Hoamer after viewing the ground.
